

Melray Electric Ltd is committed to the proactive health & safety of its employees, subcontractors, property and members of the public that may be affected by the Company's operations. Melray Electric embraces health and safety as a fundamental business objective.

Our commitment to you

- provide and maintain a healthy and safe working environment
- complying with all relevant health and safety legislation, standards and codes of practice
- supporting and encouraging worker consultation and participation in health and safety
- ensuring the accurate and timely reporting and recording of all workplace incidents and unsafe conditions.
- supporting the safe and timely return to work of injured workers
- actively support any return to work programme and employee rehabilitation in consultation with ACC.
- promoting a system of continuous improvement
- appointing and engaging safe and competent sub-contractors (where required)

To achieve this commitment, we ensure all Employees of the Company are:

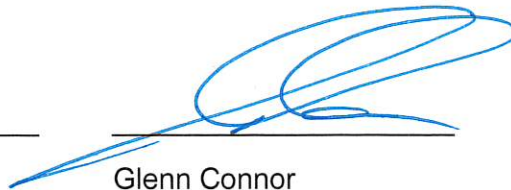

- appropriately trained for the work required and are supervised where necessary
- made aware of the policies and procedures in place to maintain a safe working environment
- aware of their responsibilities to ensure their own safety and that of their fellow-workers and the public
- actively involved in identifying and controlling risks and unsafe work practices
- aware of systems in place and how to report all accidents and incidents
- aware of the emergency procedures and evacuation processes

Your commitment to Health & Safety

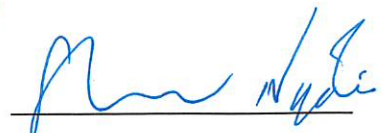

All workers (Employees, Temporary Workers, and Sub-contractors) must comply with all company policies and procedures and to work safely and responsibly ensuring the welfare of themselves and all others that may be affected by their work.
